## Didsbury Golfers Entertain Visitors

The second round of the Harold Golf Tournament was played on the Didsbury course Sunday last and the local golfers were out in force to entertain the large number of visitors who attended.

The competition was keen and some good golf was witnessed.

Low scores were:  
Dr. Wagner, 114; J. J. Welch, 114; R. B. Welliver, 114; Deer 82; H. Traar, 114; Lacombe 83; C. M. Hugst, 114; G. T. Jackson and H. M. Henderson, 114; J. McDougall, 114; 87.

J. Welch, with a total score of 101, leads on one stroke over Dr. Wagner, 114.

Next Sunday play will continue over the course of the Red Deer Golf and Country Club.

## Farm Home Burns.

The farm home on the Dr. Paisley place in the Coburn district was totally destroyed by fire on Sunday evening. The house was occupied by Mr. Chas. Long.

It is reported that the fire started when one of the children was lighting the fire to prepare supper.

A large number of the neighbors gathered, but were unable to control the flames, and with the exception of a few pieces of furniture, both house and contents were completely destroyed.

## Obituary.

Mrs. ELIZABETH VIPOND.

Mrs. Elizabeth Vipond passed away at the home of her daughter, Mrs. C. M. Reimer on Tuesday, June 7th, 1932.

Mrs. Vipond was 67 years old and was born at Whitby, Ontario. She married Mr. Isaac Vipond and in 1899 they moved to Manitoba, where they lived for two years before coming to Didsbury thirty-one years ago. They settled at Westcott, being amongst the earliest settlers in the district.

She was predeceased by her husband, who was killed in an accident while harvesting about five years ago, also a daughter, Jessie.

She is survived by one son, Mr. Allen Vipond, of Didsbury and three daughters: Mrs. C. M. Reimer, of Didsbury; Mrs. Kubeck, of Harlow, Montana and Mrs. Ashe, of Harlow, Montana.

The funeral services were held at the residence and were very largely attended by neighbors and friends. Rev. A. J. Mitchell officiated. Interment took place at the Westcott Cemetery.

## WEEKLY JOKE

The telephone bell rang and a voice queried:

"Is Mr. Jones in?"

"Yes, he's in, but—"

"Could I speak with him?"

"Well, no, it'd be inconvenient. You see, he's just vanished the stairs from the bottom up and he's waiting until they dry before he comes down."

## LOCAL & GENERAL

Mr. E. G. Ranton made a business trip to Calgary on Tuesday.

Mr. L. A. Mellie spent Sunday with his parents here.

Mr. and Mrs. Herman Hawkes were Calgary visitors Wednesday last.

Mrs. N. S. Clarke entertained the Knox United Church Ladies Aid Thursday last.

Mr. and Mrs. F. Kaufman and Miss Laura Smith motored to Ponoka on Sunday.

C. R. Ford is now driving a Chev. He, apparently, is getting ready for vacation time.

Mosheas Studebaker, Kendrick and Hugst spent a few days this week at Sylvan Lake.

Mr. W. Morrow, of Calgary spent the week-end at the home of Mr. and Mrs. H. M. Reiber.

Bill McFarquhar, Sam Franklin and W. Gillie went on a fishing trip to the James River on Sunday. They say that "Mac" caught two.

Messrs. Mel. Hugst and Al Russell started on a motorcycle trip Saturday, but only got as far as Olds, on account of motor trouble.

Mr. W. M. Henderson, manager of the Crystal Dairy at Calgary, visited at the home of his sister, Mrs. Kendrick on Monday.

It is reported that Wes. Hardy and Herman Hawkes were seen digging for gold on the banks of the Rosebud on Sunday.

Mr. and Mrs. Leonard Moore and family, of Calgary, also Mr. and Mrs. C. L. Woodman, of Calgary, spent Sunday with Mr. and Mrs. D. McRae.

The Misses Irene Grant, Nelda and Bertha Hugst, Winnie Studebaker, Grace Ranton and Murray Kendrick drove to Sylvan Lake on Friday, where they spent the week-end.

Mr. and Mrs. M. B. McRae, of Santa Monica, California, spent a few days last week with Mr. McRae's brother, Mr. D. McRae and family. They left on Monday for Empress, Alberta and Prince Albert, Saskatchewan, where they will visit before returning to California.

"Raging" the umpire is still a common sport at the softball games. Two of the town teams were the offenders Thursday evening. The umpire should have full control, and the teams have the privilege to appeal to the executive. Getting sore and raging doesn't improve the game.

Owing to weather conditions early last week it was impossible for Mens Chapter, I O D E, to hold their picnic at the Stanley Fairfax-Brown home. However, the members and their friends gathered for a dance at Zella schoolhouse on Wednesday evening. Music was provided by Stan and Bill Brown and Charlie Rowell, a very enjoyable evening being spent. The Chapter is very grateful to the musicians and the trustees of Zella school for their kindly services.

## Softball.

The Softball League is proving to be a big attraction and games are in progress every evening in the week on the local diamond.

So far the country teams are making a much better showing than the town teams, with Elkton and Clovermount sharing the leading position in the League.

### Results:

Wednesday:

Elkton 17. Woodlock 3

Thursday:

Clovermount 3. High School 2.  
Wynman 25. Woodlock 27.

These games were the tightest of the series. Real high-class ball was shown in the Clovermount-High School game, the full nine innings being played in 40 minutes.

Friday:

Clovermount 16. West Didsbury 10.

Saturday:

Elkton 13. Rosebud 5.

Monday:

Rosebud 41. Halton 5.  
West Didsbury 40. Woodlock 8.

## No Fair at Olds.

The Olds Agricultural Society has decided not to hold a fair this year, but instead are going to hold a big sports day on Wednesday, July 20, in conjunction with the Olds Golf Club Competition, which is the largest of its kind in Canada.

This year about 100 calves will be shown by the boys and girls of the district, and competition is very keen. H. A. Craig, deputy minister of agriculture and George Black, supervisor of calf clubs are expected to be present and it anticipated that this year's show will surpass any previously held.

There will be good horse races, football, baseball, softball, basketball. Kapell All-Canadian Shows have been engaged to entertain the crowds with a large merry-go-round, Ferris wheel and circus side-shows.

## Big Crowd Attends Field Day.

The field day and sports given by the Canadian Legion attracted a big attendance and is proving to be a very popular annual feature.

The crowd commenced to gather about noon and the Butte was lined with picnic parties.

The softball tournament got under way at about one o'clock and at two o'clock the Legion presented their outdoor play "The Lucky Nugget." This attraction was highly entertaining and the Butte made a splendid setting for the play.

The athletic events and children's races attracted a lot of entries and the kiddies in particular seemed to be having a great time.

Softball was the major attraction of the day. Fifteen teams were entered in the two tournaments as well as a ladies' game between Olds and Didsbury.

The following were the results:

First round:  
Bersecht 16. Elkton 5.  
Didsbury High 10. Olds Heavies 2.  
Olds 3. Springdale 2.  
Dippel 9. Rosebud 8.

Second Round:  
Bersecht 13. Dippel 1.  
Didsbury High 3. Olds 1.

The final between Bersecht and Didsbury High will be played later.

In the first round of the Public School tournament, Grand Centre 1 beat Zella and Elkton beat Gore, Elkton winning the final with a score of 18-8.

The Didsbury Country Clowns got the best of the Olds Girls by a goal margin, the score being 15-2.

## Country Clowns Beat Carstairs

Anyone on the street Saturday night didn't need to be told that the Country Clowns had got the best of Carstairs in the game played at Carstairs that evening. Their actions spoke for themselves when they drove into town in John Allen's truck.

The Didsbury girls had the best of the game up to the sixth inning, when they held the Carstairs girls down to 1 run, while they tagged up 7 scores. In the seventh they weakened, however, and Carstairs ran in 3 runs, making the final score 7-4 for the Clowns.

The Didsbury lineup was: Betty and Loretta Hunsperger, Greta and Alva Folkman, Ella Barz, Emma Refus, Alben St. Clair, Nina Wilson, Annie Morton and Grace Irwin.

# It's DAD'S turn NOW . . .

## Fathers' Day - Sunday - June 19th

Let Dad know you're thinking about him by a very practical remembrance, something to wear. A tie, a shirt, gloves, or if you want to make the gift a family one, a hat, shoes, or a new suit that'll make him forget conditions and take a new outlook on life.

Many practical suggestions in our store, including ties in the new summer shades at:

### Cellophane.

Notwithstanding the present state of financial and economic uncertainty prevailing throughout the world, resulting, as it does, in huge business losses, unemployment, and much suffering, which, in turn, leads to general discouragement, the fact remains that the world continues to progress, and when we overcome our present difficulties, and proceed to point by the lessons of this experience through which we are now passing, the world will be a better place than ever before.

The work of the scientists proceeds apace, important discoveries which will have a far-reaching effect throughout the years to come are being made, new inventions are developed, and brought to a high state of efficiency, — all of which will add to the sum total of human comfort, convenience and prosperity in future years.

Let us take just one example, and it is one in which Canada should be especially interested and from which it will unquestionably largely benefit. Canada enjoys vast forest wealth. It is one of the richest countries in the world in this respect. For many years the forests of Canada were looked upon as yielding wealth in only one form, namely, lumber. And even in this crude form billions of wealth were produced. Later, the value of our forests as a source of supply for the making of pulp, out of which paper is manufactured, came to be realized, and inasmuch as there are great rivers and waterfalls adjacent to many of our great forest areas, Canada in a few short years became one of the largest manufacturers of newsprint paper in the world, and is today the largest exporter of that everyday article of use.

Scientific men kept on working, and now the spruce trees of Canada not only supply us with lumber, and the countries of the world with paper, but from these same trees comes rayon silk, now manufactured in such quantities that silk hosiery, silk underwear, silk blouses, and many other articles of wearing apparel are worn by the masses of the people, instead of being a luxury only for the rich.

Nowadays when you buy a cigar you find it wrapped up in a little hamlet all its own, in a smooth, glossy, transparent, but tough kind of material, which is both moisture and dust proof. Candles, cakes, razor blades, cosmetics, articles of clothing, fruits and spices, in a word, almost everything which is vitally important that the article should be kept clean, fresh and sanitary, comes to you wrapped in this substance, called cellophane.

And what is cellophane, which has almost over night come into such general use? It is the old spruce tree in a new form. In fact, cellophane and rayon silk is one and the same thing, the difference resulting from the methods of manufacture. The magazine of Canadian Industries Limited, manufacturers of both rayon and cellophane, explains, as follows:

"Basically, cellophane is the same as artificial silk differing from it only in the form it takes when it reaches the casting stage, where cellophane is cast in a sheet while the silk takes the shape of fine threads.

Not only is cellophane light in weight, sanitary in that it is dust proof and moisture proof, but because of its transparency it shows off the goods so wrapped, and thus becomes a sales agent. Tests have demonstrated that articles and products cellophane-wrapped command a much larger sale than the same articles when not so wrapped.

The use of cellophane is still in its infancy, but Canadian Industries Limited have such faith in it that they have just erected a million and a quarter dollar cellophane plant in the Province of Quebec. Women's hats are now made of braided, colored cellophane as one new use of the article, but what does the future hold? Will heavier, tougher grades ultimately replace glass in our windows? Will it be developed so that we can write on it with indelible inks and thus enable us to preserve records far beyond the life of ordinary paper? Who can tell, but without a doubt it will be used for many purposes at present unknown to us.

Thus does the world progress, even during times when seemingly things are slipping backward. There are always reasons for encouragement and confidence if we take the trouble to look for them. Cellophane is but an illustration, but in itself it means an entirely new industry, putting to more profitable use one of Canada's great natural resources.

#### Altar For St. Patrick.

On a high hill within a mile of the spot where St. Patrick landed from Rome 1500 years ago, Ireland is to erect a great open-air altar. The altar will cost £50,000. The money is being raised among village. The first and was turned on St. Patrick's day during the celebrations of the 15th century.

A street car terminal, connected with the train level by an escalator, is to be constructed under the ground floor of the new central railway station in Milan, Italy.

The bulk of the world's shipments of canned crab meat are from Kalamazoo, Mich.

#### Might Be Harder

The job of being wife to a genius is not all laughing, as witness the rejoinder of a notable victim to a gush of young thing who gurgled:

"It must be a wonderful to be the wife of a genius."

"Well," said the wife, "he's just as hard to get along with as any other damned fool."

Granular carbon made from coal gives to the telephone its voice. The granules change air pressure waves to electric waves in the transmitter.

Cultivation of legumes is traced back to 1777, when some of these plants were introduced into England from Jamaica.

### Sharp Pains In His Heart Nerves In Bad Condition

Mr. Fred J. Chase, Thomson Station, N.S., writes: "I have used Milburn's Heart and Nerve Pills with wonderful results. My heart would leak so fast I would have to sit down when at work chopping in the woods. I had sharp pains in my heart when I would lie down at night. My nerves were also in a very bad condition, but after using two boxes of Milburn's Heart and Nerve Pills I feel just fine, and am fourteen pounds heavier than I have been for years."

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of order by The T. Milburn Co., Ltd., Toronto, Ont.

### Mountain Pilgrimage

Yearly Pilgrimage To Shrine Of St. Patrick On West Coast Of Ireland

Perhaps the most unusual of all pilgrimages is that made annually to the mountain-top shrine of St. Patrick on the high, bare, cone-shaped mountain which bears his name and which overlooks Clew Bay, County Mayo, on the west coast of Ireland.

Additional interest is lent to the pilgrimage this year because the ceremonies to be held on Sunday, July 31st, will celebrate in honor of the 1500th anniversary of the arrival of St. Patrick in Ireland.

The pilgrimage is made yearly by many Canadians and Americans—so many in fact that the Cunard Line for several seasons has devoted a special sailing to this purpose, the ship calling at Galway, a short distance from Westport, the starting point for the gruelling, rocky climb up the mountain, long known as Crough Patrick, whose peak stands 2500 feet above the level of the sea.

According to tradition it was from this mountain that St. Patrick drove all the serpents from Ireland into the sea, never to return.

The pilgrimage up the side of the holy mountain, where St. Patrick spent the forty days of Lent in penance, fasting and prayer, 1500 years ago, begins on Saturday evening any time between six o'clock and midnight, daylight lasting close up to this time. Young people make the ascent in three hours or less, while the older people take much longer, resting frequently during the journey. Torchlights are carried by many to light the way and guard against precipitous falls. Often the crowd breaks into a hymn to make the walking easier or to h-p them to forget the difficulty of trudging over the stony paths. For the climb up the last two hundred yards before reaching the summit the pilgrims remove their shoes and finish the journey barefooted. Many of the more religious make the entire climb without foot protection.

St. Patrick was seventy years old when he first climbed the mountain. Now many a pilgrim of the same age makes the journey, taking a keen pride in this initiation of a part of the rigid Lenten penance of the patron saint of Ireland. There is still a thrill for them in knowing where St. Patrick knelt fifteen centuries ago.

An odd thing about the pilgrimage is that rarely does any one turn back. Men and women using crutches finally reach the summit, taking five or more hours to make the ascent. Old folks go hand-in-hand, one helping the other. Girls with tender feet start the climb with old shoes to guard against the thousands of pieces of chipped stones, which cover hundreds of acres of the mountain side. These shoes are worn to shreds long before the summit is reached. Yet no one ever falters. Everybody goes on, just as if there was to be no returning back.

By six o'clock in the morning the half-acre summit of the mountain is crowded and so are the slopes, especially the protected side, should a chill wind be blowing. The masses begin at 6 a.m. and continue to be repeated until noon. As a rule about thirty priests celebrate the services in the oratory or little church, that tops the summit of the mountain. As many as six thousand receive communion. Although the climb up Crough Patrick is considered the most strenuous pilgrimage in the world, it is generally agreed that the views from the top are so superb that the visitor, as well as the pilgrim, feels that the journey is well worth the effort.

Wise mothers who know the virtues of Mother Goose's Worm Exterminator always have it at hand, because it proves its value.

#### Would Be Great Boy

A French engineer and a French air line announce the development of a new and improved type of gasoline which has among its advantages the ability to remain non-inflammable to a temperature of about 100 degrees Fahrenheit.

Caller: "Wouldn't you walk as far as the street car with me, Tommy?"

Age Seven: "I can't."

"Why not?"

"Cause we're going to have dinner as soon as you go."

W. N. U. 1914

## Keep Well with Eno's Help

If you are healthy, take ENO'S. When you are not well, take ENO'S, for in most cases the beginning of all ailments is in the intestinal tract. ENO'S "Fruit Salt" rids the intestinal tract of all the accumulated poisonous waste matter. Be ENO conscious. Start taking ENO'S "Fruit Salt" to-day.

## ENO'S "FRUIT SALT"

### Service Is Swift

Efficient Operators In Charge Of London's Overseas Telephone Exchange

London's overseas telephone exchange, recently opened, is a veritable "Tower of Babel" in a modern setting for here telephone conversations are routed for the United States, Latin America, India, Japan, South Africa, Australia, New Zealand, Europe and ships at sea all hours of the day or night. There are one hundred and fifty girl operators, speaking French, German, Spanish and Italian, in addition to their native tongue, as the calls come through the boards. The service so swift that it is possible for one in London to speak, within an hour, with persons as far away as Honolulu, Cape Town, Sydney, Buenos Aires, New York or Tokyo.

The Many-Purpose Oil—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and neuralgia, sore throat and chest. Horses are liable very largely to similar ailments and catarrhs afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

### New Industry For Canada

Plant For Production Of Cellophane Operating In Quebec

Canadian materials and Canadian labor are employed in an industry new to Canada at the Canadian Industries cellophane plant which recently commenced production at Shawinigan Falls, Quebec.

Sulphate pulp from Canadian forests forms the basic raw material for the manufacture of the transparent cellophane, the first being made here the first time in Canada. Hitherto all the cellophane used in the Dominion has been imported.

The new plant, built by Canadian workmen through Canadian capital and enterprise, is the newest industry in Canada and the latest addition to the industrial life of this little manufacturing town.

The Man With Asthma, almost long for death and his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

### Arctic Islands Preserve

The area of wild life preserves set aside for the benefit of natives by the Department of the Interior, in the North West Territories, Canada, has been extended by taking in all islands under Canadian jurisdiction north of the districts of Mackenzie and Keewatin, with the exception of a part of Baffin Island. This large area is now known as the Arctic Islands Preserve. It embraces a land area of 429,105 square miles.

### Banff Park Set Aside In 1885

Banff National Park in the province of Alberta is the oldest of the Dominion playgrounds, the original reservation having been set aside in 1885. It comprises an area of 2,585 square miles of territory. Reserved for the enjoyment of all who visit it, it is also a wild life sanctuary, evidence of which is manifest in the large number of mountain sheep, deer, and bear to be seen in the areas adjacent to the highways of the park.

### To Meet In Edinburgh

Sixteen Canadian University Women Will Attend Conference

Sixteen Canadian university women will journey to Edinburgh, Scotland, for the sixth triennial conference of the International Federation of University Women, to be held from July 27 to August 4. It was announced at headquarters of the Canadian Federation of University Women.

They are: Mrs. Douglas J. Thom, Regina, Sask.; president of the Canadian Federation; Miss Lalla C. Scott, Toronto, convener of the Canadian committee on international relations; Miss Helen F. McEwen, Miss W. G. Barnard, Miss A. W. Patterson, Miss Gertrude Boyle, Miss Jessie Dykes and Miss Bertha Hamilton, all of Toronto; Miss Lola Rutter and Miss Dorothy Tingley, Regina, Sask.; Miss M. Winifred Kydd and Miss Hazel Murchinson, Montreal; Miss M. L. Bisset, Vancouver; Dr. Donald Dickie, Niagara Falls, Ont.; and Miss Conover, Weston, Ont.

A suitable programme of addresses, group meetings and social engagements has been arranged. The meetings will be presided over by Professor Winifred Gullis, head of the department of physiology at the London School of Medicine for Women, and president of the International Federation. Representatives of 36 national federations are expected to attend.

The International Federation comprises about 50,000 individual members and is pledged to promote international goodwill through study of national and international problems and advancing the opportunities of university women.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonic in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

### Substitute For Human Voice

Instrument Invented By Man Left Speechless After Operation

Left speechless as the result of an operation some years ago, Dr. J. B. Bogart of New York, addressed the Annapolis Valley Medical Association through an instrument which provides a substitute for the human voice. He spoke for twenty minutes. The instrument is a curved tube-like appliance, one end of which is held against the throat, the other held lightly in the mouth. A small tube leads to a box held in the hand. It is from the box that the sound issues. He told the association he had invented it himself after his vocal cords had been removed in an operation for cancer. Dr. Bogart, who is a native of Nova Scotia, practices surgery in New York.

# Royal Society Of Canada Records Many Achievements In Fifty Years Of Existence

In the spacious new National Research Building at Ottawa, the Royal Society of Canada recently held its fiftieth anniversary meeting.

Founded upon similar lines to the Royal Society of London, the Canadian society in fifty years of existence has achieved much. As such organizations go, it is one of the oldest, and certainly one of the most distinguished in Canada. Through its parent society at London, it may claim to be the oldest society for the advancement of science in Britain, one of the oldest in Europe, for the Royal Society dates back to 1645, four years prior to the execution of Charles I. The Marquis of Lorne, in 1882, when Governor-General of Canada, founded a Royal Society in Canada, and looking backward over fifty years, may well view with pride its record of achievement. The society was instrumental in founding the Dominion Museum, the National Gallery, the National Museum, the ethnological museum, the geodetic and tidal surveys. At least, but not least, the society has been in the forefront of the drive for a National Research Council which is now to be housed in a fully equipped building at Ottawa built by the government in the last years of the administration.

Today, the Royal Society is an association of the foremost chemists, mathematicians, geologists, biologists and other scientists as well as the leading literary men of the country. Its purpose is to stimulate scientific advancement, to encourage literature, to give national recognition to those whose work merits it, to hear papers from its members and, when desirable, to publish them in permanent form. The Canadian Society numbers about 250 members.

The society is divided into five sections. There are French and English sections, concerned with history, literature, economics and so on. A third section covers the chemical, physical and mathematical sciences. A fourth deals with the geological sciences. Membership runs to between 40 and 50 in each section. The first is limited to 40 members, the second to 50. The other three sections elect three new fellows—nine in all—each year. The society elects executive officers, as do each of the five sections. The president this year is Sir Robert Falconer, retiring president of Toronto university. The secretary is Fred Burpee, secretary of the International Joint Commission; the treasurer, Dr. G. A. Young, of the Geological Survey. The society is supported by fees of members, but parliament votes a small grant each year to defray cost of publishing the meritorious papers.

The fellows of the royal society in the three prairie provinces are:

Judge L. A. Preadhomme, St. Boniface; President, Walter Murray, of Saskatchewan University; Dr. E. H. Oliver, head of the United Church Theological College; Professor Frank Allen, of Manitoba University; J. W. Daffoe, editor-in-chief of the Free Press; Dr. R. J. Lang, of Alberta University; Professor R. K. McClung, of Manitoba University; Professor M. A. Parker, of Manitoba University; Professor J. W. Shipley, of Alberta University; Professor Stanley Smith, of Alberta University; Professor T. Thorsvaldsen, of Manitoba University; Professor J. A. Allen, of Alberta University; Professor J. C. Delaney, of Manitoba University; Dr. R. C. Wallace, president of Alberta University; Professor William Boyd, of Manitoba University; Professor A. H. R. Duffer, of Manitoba University; Professor A. T. Cameron, of Manitoba University; Professor Francis J. Lewis, of Alberta University; Professor Robert Newton, of Alberta University; and Professor W. P. Thompson, of Saskatchewan University.

"That fellow is a thief! He stole my nib!"

"Why don't you have him arrested?"

"That's n. I can't. I stole it from the judge!"

W. N. U. 1944

## A Museum Of Sound

German Professor Collecting Records Of Voices Of Famous Persons

The modern world has been so busy enjoying the entertainment afforded by such scientific toys as the table and the gramophone, that it has perhaps not yet properly appreciated their value as records of the age. Now, however, a "museum of sound" is to be opened in Berlin.

For the past twenty years, the organizer of this museum, Professor Doegen, has been collecting records of the voices of famous personages of all countries. Great Britain's representatives include Mr. Ramsay MacDonald and Miss Pankhurst, while the former German Kaiser is among the royalty represented.

Much of Professor Doegen's material was collected during the War, when he visited the prison camps collecting records of foreign languages and dialects as he went.

IMAGINE ITS PRETTINESS AND CHIC IN A COOL LOOKING SILK CREPE PRINT

Incidentally the raglan shoulders are very slenderizing and a smart vogue.

The wrapped bodice is out for effect with its hip bow. And incidentally, it's a style most becoming to the youthful figure.

It's very easily fashioned! You'll be surprised! You'll have a stunning dress for a small outlay. And you will enjoy wearing for town or for the afternoon bridge or tea.

Style No. 417 is designed for sizes 14, 16, 18, 20 years, 36 and 38 inches bust. Size 16 requires 3 1/2 yards of 36-inch material with 1 1/2 yards of 3-inch ribbon.

You could also carry it out in plain crepe silk in cased or heavy blue.

For summer, it is delightfully cool in a chiffon or a voile print.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap, coin carefully.

## Using Stainless Steel

Dome Of Church At Jerusalem To Have Five Girls

Beating records into plough furrows has an application to St. Paul's. With its great iron and steel girders, the dome of the Church of the Holy Sepulchre at Jerusalem. The dome of the Church of the Holy Sepulchre at Jerusalem. The dome of the Church of the Holy Sepulchre at Jerusalem.

From time to time during the last eight centuries the church has been shaken by earthquakes and there is a great possibility of its final collapse. In any body of the dome form here is also an inherent weakness at the base. When Christopher Wren built St. Paul's he thought he had overcome this difficulty by binding the base of the dome with chains of iron. The device lasted for 200 years but now is not only perishable itself but destroys the surrounding stonework. Now the dome of St. Paul's has been encircled with a material stainless steel of which the smiths in the days of the Stuarts knew nothing.

It is curious to recall the great invention of stainless steel following the war years was the outcome of earlier explorations by metallurgists to discover a steel for rifle barrels which would not corrode. Truly the links which Sheffield Munitions Works are now forging with the Holy Sepulchre have some curious associations.

## Guide For Public Speakers

Variety Of Places Where Hands Can Be Tucked

"I have checked up almost 57 varieties of places for a public speaker to park his hands," writes Dr. John F. Cowan. "In his pockets, trousers, coat vest, under pockets, lower rear, hooked in vest armholes, clasped across tummy, ditto back; wadding handkerchief, and unwadding; clenching lapsels of coat; pounding desk; brushing hair, slipping (camouflaged) at flies; full-arm gesture, half-arm, finger; pointing at audience; twisting moustache; finger-tips together upturned; fumbling paper; pulling down vest; snapping; and when not otherwise emphasizing the truth, saving imaginary wood in the air."

One of the first things a person should learn to do is to mind his own business, but it is a sad comment on our educational systems, on parental example and also on human nature that so few acquire this quality.

# Fluctuations In Sun Spots Believed To Have Effect On Life And Economic Conditions

## Gathering Data For Book On Dominion

Irish Author Amazed At Good Treatment Canadian Women Receive

Irish women are far too well treated by their men. They are pampered and spoiled. They would be better off as Irish husbands and sweethearts paid more attention. This is the verdict of Lady Rona Terrington, a daughter of Erin with the genuine milk and roses complexion and auburn hair of the true daughter of Ireland, in the course of a tour across Canada gathering material for a book on the Dominion.

Daughter of the late Capt. William Shapland-Swiny, and a Fleet Street journalist for five years before leaving newspaper work for magazine and publisher assignments, Lady Terrington stated her opinions of Canadian women in no uncertain terms.

"It's amazing how well your men treat your women," she exclaimed with a smile. "Much too well, really. It's too bad for them."

"But they appreciate it, don't they?" "Not as much as they should. I have observed all too many instances since my arrival here where the woman takes for granted things her sisters in other countries would not pass up."

"How do Canadian women measure up with their sisters in other particulars?" "Well, they're better dressed, for one thing. Your business women, particularly. How well groomed their hands and feet are! It is the little things like that that count."

"The way you Canadians make friendships appeals to me so much," Lady Terrington continued. "It's made me lose all desire to go home. And in Canada you seem so eager to help each other. I may yet come to live here."

In a race between a horse and a locomotive, in 1920, something went wrong with the engine and while it struggled along the horse won the race.

Teacher: "Your little girl seems backward in her reading."

Father: "Backward, eh? I suppose she takes after her mother; she always reads the last chapter first."

## THE WORLD'S FASTEST AUTOMOBILE RACE

Above are two snapshots of competitors speeding round the Brooklands (England) track during the British Empire Trophy race, the fastest long distance race on record. The top picture shows John Cobb in his Delage, taking the banking on the last lap. He actually finished first, but was disqualified through driving infringements, and given second place. Below is G. E. T. Eyston, in his Panhard, taking the banking with three wheels off the ground. Eyston was given first place with the remarkable average speed for a distance of 100 miles of 126.354 miles per hour.

That profound fluctuations in living conditions and life expectancy fluctuation in sun spots is indicated by the study of these celestial phenomenon carried on by the Dominion Observatory of the Department of the Interior at Ottawa.

Individual sun spots vary greatly in size. Some are as small as the earth, while others are five and six times as large. When it is recalled that the Sun is 885,000 miles in diameter, over 100 times the diameter of the Earth, a spot the size of the Earth appears as a trivial defect on the solar disc.

Since 1750 the European records of sun spots are so complete that to each month has been assigned a relative sunspot number giving due regard to numbers and sizes of spots and groups of spots. From the monthly numbers a yearly average results. These yearly numbers increase from a minimum up to a maximum and down to a minimum in from about 9 to 14 years. The average number for a cycle of a little over 11 years. The extent of the maximum also varies from cycle to cycle. The cause of the cycle in sun spots is not definitely known as yet. In recent years the minimum of sun spots occurred in 1901, 1902, and 1903 with maxima in 1890, 1917, and 1928.

This fluctuation in the sunspot numbers is ordinarily spoken of as the eleven year sunspot cycle. It is accompanied by fluctuations on the Earth in sunlight received, electromagnetic conditions, chemical compounds in the atmosphere, temperature, precipitation, cloudiness, and atmospheric transparency. These fluctuations in the physical elements which control living conditions are great enough in some regions to affect profoundly all forms of life, micro-organisms, insects, birds, animals, plants and even fish, and in consequence economic conditions.

Records kept in Manitoba since 1895 when examined in the light of the sunspot cycle show the relationship between the rise and fall in the number of sun spots and the maximum and minimum of grasshoppers, ruffed and sharp-tailed grouse, and rabbits. Records from other sources show similar effects for fish and fur-bearing animals.

The annual growth-rings of trees which grow in northern Europe, in western United States, and in many regions in Canada all record the influence of the sunspot cycle in the past, in some cases even farther back than the records of sun spots extend. The eleven year cycle has been found in trees recently released by the retreating glacier in northern British Columbia, trees which grew perhaps many thousands of years ago.

Farm crops in Canada, the grains, hay and potatoes, show on the average greater yields at the sunspot minimum than at the maximum in accord with the higher temperatures and greater precipitation occurring on the average at sunspot minimum. Cotton yield in the United States also exhibits the influence of the sunspot cycle. These fluctuations and those in other forms of life exert a great influence on economic conditions and it is consequently not surprising to find the eleven year cycle reflected in commodity prices, though at times the doings of man obscure the issue.

**Penalising Britain.**

It is not to be forgotten that Canada was the first country in the world to penalise British exports. Quite recently another nation did so—France. The French government put a surtax of 15 per cent. on British imports to correct the depreciation of the Pound. Mr. Runciman, President of the British Board of Trade, on behalf of the British government, promptly protested. Mr. Rollin, French Minister of Customs pointed out in reply:

"France is not the first to take this step, for one of the leading British dominions, Canada has taken similar action by fixing her import duties on the basis of gold prices, which amounts to a surtax to compensate for the fall in currency."

This is the first time a foreign country, in defending a policy which injures Great Britain, has been able to turn to Canada for a precedent.

—Winnipeg Free Press.

**Bull In a China Shop.****Bull Resents Being Used In Big Sale Advertising Campaign at Cardston.**

On the window in blazing red letters the visiting high-power salesman promised a shambles. Cardston had never seen such a sale. "Give me the money," the announcement said, "and I will throw you the goods."

In heavy type at the foot the sale notice said: "What a bull would do in a china shop is harmless recreation compared with my ruthless hand in wrecking this high-grade stock."

And while clerks awaited the anticipated rush on the opening day there was a roar at the entrance and the door burst open. It was The Bull.

He proceeded immediately about the work of creating the promised shambles. While glass was smashed, women screamed and men ran for the exits.

The bull belonged to Mrs. Duce, of Cardston. It was taken out to pasture when the red flags and flaunting sign attracted his attention.

The sensation caused by his entrance enraged the bull the more. He pranced around, tossing green merchandise in all directions, smashed fittings in his wild progress and wound up with a grand departure through the plate glass windows bearing the advertisement.

Damage was reported extensive and costly. The windows, underlating the power of an enraged bull, will cost more than \$200 to replace, but the enterprising salesman obtained some smashing, novel and completely unexpected publicity.

—The Albertian.

**LOCAL & GENERAL**

Mr. and Mrs. J. V. Berscht drove to Calgary on Tuesday.

Mrs. W. Gillrie spent a few days in Calgary this week.

There will be service at Bethel Evangelical Church, Westcott on Sunday afternoon at 2 o'clock.

What shall we do Saturday night? Why, dance at the Opera House. It's only 25c, and good music too.

Extra good quality large size writing pads (100 sheets) for sale at Pioneer Office—25 cents each.

St. Cyria's W.A. will hold a tea and sale of home-cooking at the home of Mrs. Roger Barrett on Thursday afternoon, June 23rd.

We have a fresh supply of scratch pads now ready. Especially useful for school, store or telephone. 2 for 5 cents.—Pioneer Office.

W. J. Hilyard is trying a gardening experiment—he is growing peas. A page wire fence will be necessary to keep the kids out of the garden this fall.

A report of the Annual Conference will be given at the morning service at Zion Evangelical Church. In the evening, Rev. H. J. Wood will preach a Father's Day sermon.

The Albright Brotherhood of Zion Evangelical Church will hold its monthly meeting Tuesday evening, June 21st at 8 o'clock, when Dr. H. C. Llesmer will speak on "The Divine Plan of the Great Pyramid."

The 28th Anniversary of the Westerdale United Church will be held next Sunday, June 19th. Rev. A. J. Mitchell will conduct the service. A large attendance is expected at this special service.

Mr. and Mrs. Harry Levagood, Mildred and Joyce and Miss Rena Edwards enjoyed a very pleasant week-end at Sylvan Lake, while visiting Mr. and Mrs. R. H. Edwards.

When wives are away, husbands go bachelor, but when wives step out in their turn, you see the funniest film of the year, "Stepping Out" at Didsbury Opera House Monday and Thursday next. Reginald Denny and Charlotte Greenwood make an excellent star combination.

"Palmy Days" at the Opera House tonight (Thursday). Greatest comedy hit on earth. You'll howl at Eddie Cantor as a great French hypnotist holding a side-splitting seance. Roar at him as efficiency expert in a doughnut factory. Also features Charlotte Greenwood.

**High School Baseball.**

DIDSBURY vs. OLDS.

The baseball game Wednesday last between Didsbury High School and Olds provided plenty of excitement for the large number of fans present. Seven innings were played, with the score finally being 11-10 in favor of the locals.

For five innings Durrer hurled a nice game for Didsbury, and with fine support was seldom in trouble, but Olds came to bat in the sixth facing a 3-run deficit and with two men down. Hays and E. Black were both walked and both scored on an infield error, making the score then 10-9 for Didsbury, who were held scoreless in their half of the inning.

Olds scored again in their half of the seventh to tie the game. With Didsbury at bat it began to look like an extra inning coming up, when Holub fled out to centre and Booker was thrown out at 1st. Tom Pearson saved the game, however, when he singled through short, stole 2nd and 3rd and scored on Leonard Berscht's single.

Didsbury: Berscht, F. Evans, Honey, C. Geiger, A. Durrer, R. Gulliver, R. Holub, P. Booker, Pearson. Olds: Hays, E. Black, B. Black, Patmore, Haldane, Hanson, Earl, Garahan, Paul.

#### ITEMS OF INTEREST

A stranger loaded up Drumheller merchants with spurious 50 cent pieces this week. He left on the Calgary bus and not been seen since.

Because a bottle of ginger beer, which they had both consumed, revealed a dead mouse in the bottom, Luigi Fiedini and his wife were each awarded damages of \$1.00 at Vancouver against the Thorpe & Co. soft drink company.

There has been comparatively little damage in Alberta from grasshoppers and cutworms, according to advices received at the Calgary office of the Alberta Wheat Pool. It is pointed out that the cool, wet weather has had the effect of curtailing the ravages of these pests and that there is little likelihood of serious damage from this source in the province this year.

## WITH THE TRAIL RIDERS

East is East and West is West, but men ride where-ever the sun shines and the Trail Riders of the Canadian Rockies, with a membership which girdles the globe, are creating widespread interest with their plans for their 1932 expedition from Banff to Mount Assiniboine, through some of the most beautiful country in the great mountains from which they take their name. The famous peak, with its many adjoining lakes and valleys, was the focal point of the 1927 trail ride and this year's trip, starting on July 29, will follow generally the same lines, with nights spent in camp, according to the best traditions of the Order. Ample time will be given for exploring the territory traversed, the ride occupying five days and traversing Brewster and Allenby Creeks; Assiniboine Pass and the shores of Lake Margot to the great mountain, which is the objective of the riders. Return will be made through the Valley of the Rockies; the Golden Valley; Citadel Pass and so

through Sunshine Camp to Banff once more. The pictures shown above are distinctly interesting and show Lt. Col. Phil Moore, president of the Trail Riders, and Mrs. Moore, on camel-back at the Pyramids, during the world-cruise of the Canadian Pacific liner "Empress of Britain," in strong contrast to the cowboy viewing Mount Assiniboine, where this year's trail ride leads. Inset is H. M. King (Trail Rider) of Siam, who proved an enthusiastic trail rider during his visit to Canada last summer. Below, two fair bathers are seen setting out from one of the cabins at Assiniboine Camp.

# **BABY'S OWN SOAP**

Best for Baby Best for You

## **WORLD HAPPENINGS BRIEFLY TOLD**

To economize in League of Nations expenses a measure proposed by Great Britain has been sent to the supervisory committee.

A bill amending and consolidating the fisheries act was put through the committee stage and given third reading in the House of Commons. There was little discussion.

Millions of north and central Italy are now allowed to use 75 per cent of import grain, south Italy 90 per cent, while in Sardinia and Sicily restrictions have been entirely lifted.

To take possession of a fortune of about \$180,000,000, a white-haired Armenian woman, Marianne Djani-djian, 80, has gone to India with her two sons.

Hope that 1932 would prove historic in drawing together all citizens of the British Empire was expressed by J. H. Thomas, Dominions Secretary, in an Empire Day address.

Shanghai was completely isolated from the rest of the world as far as mail is concerned, when the indoor postal workers joined the outdoor workers in a strike.

Attempts to find the abandoned Hudson's Bay Company ship "Baychino", and the salvaging of a rich fur cargo believed to be aboard, have been given up by William R. Graham and Mrs. Edna Christoffersen.

Several thousand feet above the city of Chicago a youth killed himself in an aeroplane recently, because his dreams of becoming an aviator had come to naught. He shot himself to death.

In the first case of its kind ever brought in district courts, Angus D. Graham paid \$525 in county police court at London, Ontario, because he is said to have forgotten to put a stamp on a cheque.

### **New Earl Of Egmont**

Has Inherited All His Father's Troubles In Connection With Estate

The new Lord Egmont is a pitiable figure. He made friends with no one but his father, and now there can be hardly any lonelier boy in the world than this 35-year-old earl. He avoids all society, and has a terror of publicity.

He will have all his father's troubles and more, for death duties must again be paid on the Egmont estates. His father was staggered to find the estates reduced to an apparent value from \$2,500,000 to \$900,000, due to death duties and payments on two dowry marriages.

Father and son lost rabbits and pheasants on the estate and sold them to neighboring villages to help meet expenses. The boy, who never had a mother's influence, had practically no education or experience of the world, and who has been smothered by the cruel disappointments encountered since reaching England, is left to cope with the problems of a large though impoverished estate.

Elephants have been known to live 300 years.

## **Skin Loveliness** Easy to Have. Famous Vegetable Pills Better than Creams

"Mrs. E. T. has proved it. She says: 'Carter's Little Vegetable Pills will do more to keep the skin clear than all the face cream I ever used.'"  
PUT IT TO A PROOF. "It's a gentle, safe, effective skin purifier and beautifier. Dr. J. C. Carter's Little Vegetable Pills are without equal in correcting Constipation, Acidity, Indigestion, Headaches and Indigestion. 25c, 50c, 75c, red pkg., every where. Ask for Carter's at S.M.I.

W. N. U. 1934

### **Canada's Newest Metal**

Added to Many Refined Products Is Selenium

Selenium is the latest addition to the numerous refined metal products now being produced in Canada. It obtained as a by-product in copper refining and was produced for the first time in Canada (early in 1931) at Copper Cliff, Ontario.

Canada is now in a position to produce selenium in large quantities but the market for any output is at present restricted, according to Mr. Arthur Dabson of the Dominion Department of Mines, Ottawa. Further researches to develop new uses will undoubtedly create a wider market for this relatively new commercial product.

Selenium is not very abundant in nature, although fairly widely distributed. It is found associated with sulphur compounds and often accompanies the sulphides of heavy metals in the form of selenides. In the electrolytic refining of copper it remains in the slimes or residue from which it is afterwards extracted. In its metallic form it is characterized by a unique action toward light, which has made possible the development of the photo-electric cell or "electric eye."

Selenium finds its present chief market in the glass industry where it is used as a colorizer and for neutralizing other colors; it is also used in the pottery industry for the same purpose. In the manufacture of rubber products it serves as a vulcanizing and accelerating agent, and because of its repulsive properties of increasing the resistance to abrasion of rubber up to as much as eighty per cent, it may have a large potential market in that industry. One of the most important potential uses is in the production of selenium cells for television transmission and reception.

### **Disastrous Economy**

Demand For Products Ceases When Advertising Is Stopped

The most advertised manufactures are the ones most asked for. Stores which advertise the most are the most frequented and prosperous. Their prices are no higher than at the other stores. Often they are lower for the precise reason that their advertisements bring them a bigger clientele and, as their sales are therefore far more, they are in a position to be content with a smaller profit on each sale. It was never so important to make sure that we do not become discouraged, and to go ahead with our business and keep money in circulation. How can we expect to succeed if we cut down on our advertisements which create the demand for the products of industry and commerce? This would be a false economy, an economy which would be disastrous. — Le Droit, Ottawa.

### **Forgotten SOLDIER**

War Office Evidently Overlooked Some Detailed For Special Duty

There must have been more than one case similar to the story told by Mr. C. C. Horsfield in his recently published autobiography of the two British soldiers who, detailed to look after a rifle range at Dover in 1914, remained there forgotten until the end of the war, when they reported themselves and claimed five years' back pay, states *Canada* in the Sunday Pictorial, who himself came across one man in a similar position at thebruck, the chief town of the Austrian Tyrol, three years after the war had ended. Dining in a hotel there, he was surprised to see at a nearby table a British captain in uniform. They got into conversation, and he said that he had been sent there in 1918 and was convinced he had been forgotten by the War Office. "Why don't you get in touch with London?" asked the writer. "Why should I?" was his answer. "This is a cheap place in which to live."

### **Recipes For This Week**

(By Betty Barclay)

#### **GOLD COOKIES**

- 2 cups special cake flour, sifted.
- 1 teaspoon baking powder.
- 1/2 cup butter or other shortening.
- 1 cup sugar.
- 4 egg yolks, unbeaten.
- Sift flour once, measure, add baking powder, and sift again. Cream butter, add sugar gradually, and cream together until light and fluffy. Add egg yolks one at a time, beating thoroughly after each addition. Add flour, Chili Roll into balls 3/4 inch in diameter. Roll some balls in mixture of chopped nuts and cinnamon, and remaining ones in finely colored candies. Bake in moderate oven (325 degrees Fahrenheit) 15 minutes, using lower grate during first half of baking period and upper grate during last half. Makes 3 1/2 to 4 dozen cookies.

#### **COCONUT SOUFFLE**

- 2 tablespoons butter, melted.
- 3 tablespoons flour.
- 3 tablespoons sugar.
- 1/2 cup milk.
- 2 egg yolks, well beaten.
- 4 egg whites, stiffly beaten.
- 1 can coconut, naturally style, chopped.
- Dash of salt.
- 1 teaspoon vanilla.
- Blend butter and flour, add sugar and milk and cook in double boiler until thick and smooth, stirring constantly. Cool slightly and add egg whites. Fold into egg whites: then fold in coconut, salt, and vanilla. Turn into greased casserole, place in pan of hot water, and bake in moderate oven (375 degrees Fahrenheit) 40 minutes, or until firm. Serve with lemon sauce. Serves 8.

### **Britain and Disarmament**

Says Critics Of Europe Would Like To See Britain's Army and Navy At Greater Strength

Mr. Lansbury distinguished himself (in a debate upon the British Government's foreign policy) by asking one more of those questions which prove that he has not yet learnt the art of sitting gracefully on a fence. Against whom are we arming? "The painful crux of this inquiry drew down on him a severe rebuke. "That," said Sir Austen Chamberlain, "was rather a dangerous question, and it would be more dangerous for the Foreign Secretary to answer it." However, Sir Austen was at least quite sure that no nation was arming against us. On the contrary, there was "not a nation on the Continent of Europe" which would not like to see the British army and navy bigger and better all round. As a comprehensive testimony to our own ineffable goodness amid a naughty world this leaves nothing to be desired. "Not a nation," it seems, does not wish more power to our strong right arm. Is it not, then, a little curious that they do not all give effect to this wish? By reducing their own armaments they would increase ours. What could be simpler? — Manchester Guardian.

### **A Hundred Point Man**

Is True To Every Trust and Safe Person To Deal With

"A Hundred Point Man" is one who is true to every trust; who keeps his word; who is loyal to friends and to those who employ him; who does not listen for insults nor look for slights; who carries a civil tongue in his hand; who is polite to strangers, and is never "fresh"; who is considerate towards employees; moderate in eating and drinking; who is always willing to learn; who is cautious and yet courageous.

Hundred-point men are safe men to deal with, whether they be chauffeurs, motor men, clerks, cashiers, engineers, teachers or presidents of this and that.

### **Loyalty In India**

Untouchables Carry British Flag At Head Of Procession  
British residents of Poona, India, were stirred recently by the sight of a huge Union Jack fluttering at the head of a purely Indian procession. It was the first time such a thing had occurred at Poona for many years. The procession, which comprised thousands of untouchables, was in honor of the homecoming of M. Ambekar, a representative of the untouchables at the recent Indian Round Table Conference in London.

The capital of the new Manchurian state is Changchun.

## **"YES, I AM 40 YEARS OLD!"** says Irene Rich

"YES, I am 40 years old. I don't mind confessing it a bit," says Irene Rich, "and I have two grown daughters of whom I am very proud. A screen star never worries about birthdays, you know."

But, in Hollywood, they guard complexion beauty above all else. They know it says youth quicker than anything else.

How does this lovely star guard complexion beauty? Just as so many other Hollywood actresses do—68¢ of the 69¢ important ones! "I have used Toilet Soap regularly for years," she says, "and am very grateful for it."

Surely you will want to try this fragrant, white soap. The carers of dollar-a-cake French soap for 10c.

IRENE RICH and her two daughters (left to right) Irene, 17-year-old, and Jane, 15-year-old. Irene, 40, is the mother of the two girls. One of Mrs. Rich's recent photographs.

### **Repair Vessels At Esquimaux**

Summer Overhaul Of C.P.R. Pacific Steamers To Be Made In Canada

Summer overhaul of the Canadian Pacific Railway's Express liners which ply out of Vancouver, will be done at Esquimaux instead of at Hongkong in future, it is announced by Capt. E. Aikman, general superintendent of Canadian Pacific Steamships, Ltd.

The general overhaul, which takes place every winter, will still be done in the Orient.

The decision, which will bring additional employment for British Columbia workmen, has been reached by agreement with the Dominion Government.

The government has made concessions regarding dock dues and the Canadian Pacific Railway has undertaken to pay the additional costs of labor, which is nearly five times as expensive as that in the Orient.

The new policy will become effective with S.S. Empress of Russia which will go into drydock on July 15. She will be followed in turn by S.S. Empress of Japan, S.S. Empress of Asia and S.S. Empress of Canada.

### **One Of Canada's Largest Lakes**

Great Bear Lake, the fourth largest on the North American Continent, has an area, according to the best information available, of 11,663 square miles. The Topographical Survey, Department of the Interior, Ottawa, has recently issued a map on the scale of eight miles to an inch including the whole lake.

The city of Bahia, in Brazil, has a 244 foot elevator tower which carries pedestrians from the streets by the bay up to the streets on the hill.

"James, have you a pocket knife?" "Yes, sir." "Then, carve two hearts crossed by an arrow on this tree." — Walter Jacob, Berlin.

## **WHERE TO SPEND AN ENJOYABLE VACATION**

Canada-the-Star

ONCE the annual vacation has become a definite part of modern life, the decision as to where it will be spent is of considerable importance. Canada has a particular appeal to the vacationist, for it has an unusual variety of attractions, which may be enjoyed at reasonable cost.

For most people, the summer vacation is limited to a few weeks and is shortly shortened by the time used in travelling to and from the locality selected. Canada has an extensive sys-

tem of good roads and excellent railway services, which greatly facilitate travel between provinces.

Canada presents a striking diversity of natural features: the rugged and picturesque Atlantic Coast; the St. Lawrence River and Great Lakes; the world's greatest inland waterway; the Laurentian Mountains, land of forest and stream; the prairies; the majestic Rockies; and the beautiful Pacific Coast. Each of these areas has its own attractions of scenic beauty and opportunities for enjoyable recreation. Fishing, hunting, camping, canoeing, and mountain-climbing may all be enjoyed under ideal conditions, while golf and tennis may be played prac-

tically everywhere. Accommodation includes everything from camp site to luxurious hotel. Those to whom economy is a matter of concern may spend a pleasant vacation close to nature, at surprisingly small cost.

The National Development Bureau, Department of the Interior, Ottawa, has prepared a series of automobile road maps, showing the main routes from one province to another, also a number of interesting booklets, including "Vacations in Canada," which describe the most attractive of each province. These will be sent to any of our readers planning a vacation. Applicants should state the areas in which they are interested.

## AS SLIM AS AT 20

### Still Fit and Active at 55

"I have been taking the small dose of Kruschen Salt every morning for the last three years. I wouldn't be without them in the house. I used to suffer with constipation and piles, but I am never troubled in that way now. I am 55 years old, as slim as when I was 20. I have to work very hard, as I have my family and an invalid father to attend to, and I always say it's the Kruschen that keeps me fit."—M. S.

There's nothing like hard work and activity for keeping superfluous fat away. The trouble with most folks is finding the necessary energy. That is where Kruschen comes in.

After you have had your daily supply of Kruschen every morning for a couple of weeks you'll get what is known the world over as "That Kruschen feeling."

The urge for activity will fill your entire being—you'll not be content to sit in the old arm chair after your day's work is done.

You'll feel the spirit of youth within you—what a joyous feeling—you'll want to take long walks, play games and your work will cease to be a hardship—it will become a pleasure.

## THE HOUSE OF DREAMS-COME-TRUE

Hodder & Stoughton, Ltd., London.

## CHAPTER XXII

## "Willing Or Unwilling?"

It was over a bare twenty yards from the brow of the hill the man had won, and now the mare was standing swaying between the shafts, shaking in every limb, her flanks heaving and the sweat streaming off her sodden coat in little rivulets.

Burke was beside her, patting her down and talking to her in a little intimate fashion much as though he were soothing a frightened child.

"You're all in aren't you, old thing?" he murmured sympathetically. Then he glanced up at Jean, who was still sitting in the cart, feeling rather as though the end of the world had occurred and, in some surprising fashion, left her still cumbering the earth.

"She's pretty well run herself out," he remarked. "We shan't have any more trouble going home"—smiling briefly.

"I hope not," answered Jean a trifle flatly.

"You all right?"

She nodded.

"Yes, thank you. You must be an excellent whip," she added. "I thought the mare would never stop."

Probably even Jean hardly realized the fineness of the horsemanship of which she had just been a witness—the judgment and coolness Burke had evinced in letting the mare spend the first freshness of her strength before he essayed to check her mad pace; the dexterity with which he had somehow contrived to keep her straight; and finally, the consummate skill with which, that last half-mile, he had pulled her mouth, rejecting the dead pull on the reins—the instinctive error of the mediocre driver—and which so quickly numbs sensation and neutralizes every effort to bring a runaway to a standstill.

"Yes, I rather thought our number was up," agreed Burke absently. He was passing his hands feelingly over the mare to see if she wore any grain, and suddenly, with a sharp exclamation, he lifted one of her feet from the ground and examined it.

"Cast a shoe and torn her foot rather badly," he announced. "In afraid we shall have to stop at the next village and get her shod. It's not a mile further on. You and I can have tea at the inn while she's at the blacksmith's."

With a final caress of the steaming

chestnut neck, he came back to the side of the cart, reins in hand.

"Can you drive her with a torn foot?" queried Jean.

"Oh, yes. We'll have to go carefully down this hill, though. There are such a confounded lot of loose stones about."

He climbed into the dog-cart and very soon they had reached the village, where the chestnut, tired and subdued, was turned over to the blacksmith's ministrations while Burke and Jean made their way to the inn.

Tea was brought to them upstairs in a quaint, old-fashioned parlour fragrant of hyacinth. Oaken beams, black with age, supported the ceiling, and on the high chimney-piece pewter dishes gleamed like silver, white at either end an amazingly old-fashioned spotted dog, in genuine old Staffordshire, surveyed the scene with a satisfied smile. Through the leaded diamond panes of the window was visible a glimpse of the Moor.

"What an enchanting place!" commented Jean, as, tea over, she made a tour of inspection, pausing at last in front of the window.

Burke had been watching her as she wandered about the room, his expression moody and dissatisfied.

"It's a famous resort for honeymooners," he answered. "Do you think—enquiringly—"it would be a good place in which to spend a honeymoon?"

"That depends," replied Jean cautiously. "If the people were fond of the country, and the Moor, and so on—yes. But they might prefer something less remote from the world."

"Would you?"

"I?"—with detachment. "I'm not contemplating a honeymoon."

Suddenly Burke crossed the room to her side.

"We might as well settle that point now," he said quietly. "Jean, when will you marry me?"

She looked at him indignantly.

"I've answered that question before. It isn't fair of you to reopen the matter here—and now."

"No," he agreed. "It isn't fair. In fact, I'm not sure that it isn't rather a childish thing for me to do, seeing that you can't get away from me just now. But it's fair in love and war. And it's both love and war between us two"—grin.

"The two things don't sound very compatible," fumed Jean.

"It's only war till you give me in—till you promise to marry me. Then"—a smouldering light glowed in his eyes—"then I'll show you what love means."

She shook her head.

"I'm afraid," she said, attempting to speak coolly, "that it means war indefinitely then, Geoffrey. I can give you no different answer."

"You shall!" he exclaimed violently. "I tell you, Jean, it's useless your refusing me. I won't take no. I want you for my wife—and, by God, I'm going to have you."

She drew away from him a little, backing into the embrasure of the window. The look in his eyes frightened her.

"Whether I will or no?" she asked, still endeavouring to speak lightly. "My feelings in the matter don't appear to concern you at all."

"I'd rather you came willingly—but, if you won't, I swear I'll marry you, willing or unwilling."

He was standing close to her now, staring down at her with sombre, passion-lit eyes, and instinctively she made a movement as though to elude him and slip back again into the room. In the same instant his arms went round her and she was imprisoned in a grip from which she was powerless to escape.

"Don't struggle," he said, as she strove impotently to release herself. "I could hold you from now till doomsday without an effort."

There was a curious thrill in his voice, the triumphant, arrogant leopold of possession. He held her pressed against him, and she could feel his chest heave with his laboured breath.

"You're mine, mine!" his woman-mountain for me from the beginning of the world—and do you think I'll give you up? . . . Give you up? I tell you, if you were another man's wife I'd take you away from him! You're mine—every inch of you, body and soul. And I want you. Oh, my God, how I want you!"

"Let me go . . . Geoffrey . . ."

The words struggled from her lips. For answer his arms tightened round her, crushing her savagely, and she felt his kisses burning, scorching her

face, his mouth on hers till it seemed as though he were draining her very soul.

When at last he released her, she leaned helplessly against the woodwork of the window, panting and shaken. Her face was white as a magnolia petal and her eyes dark-rimmed with purple shadow.

A faint expression of compassion crossed Burke's face.

"I suppose I shall never be forgiven now," he muttered roughly.

With an effort Jean forced her tongue to answer him.

"No," she said in a voice out of which every particle of feeling seemed to have departed. "You will never be forgiven."

A look of devilry came into his eyes. He crossed the room and, locking the door, dropped the key into his pocket.

"I think," he remarked coolly, "in that case, I'd better keep you a prisoner here till you have promised to marry me. It's your I want. Your forgiveness can come after. I'll see to that."

The result of his action was unexpected. Jean turned to the window, unthinkingly, and flung open the casement.

"If you don't unlock that door at once, Geoffrey," she said quietly, "I shall leave the room—this way"—with a gesture that sufficiently explained her meaning.

Her voice was very steady. Burke looked at her curiously.

"Do you mean—you'd jump out?" he asked, openly incredulous.

Her eyes answered him. They were feverishly bright, with an almost fanatical light in them, and suddenly Burke realized that she was at the end of her tether, that the emotional stress of the last quarter of an hour had taken its toll of her high-strung temperament and that she might even do what she had threatened. He had no conception of the motive behind the threat—the imperative determination which had leaped to life within her to either suffer anything rather than stay locked in this room with Burke, rather than give Blaise, the man who held her heart for misunderstanding or mistreating her, an eye.

(To Be Continued.)

Persian Balm is irresistibly appealing to all women who appreciate charm and elegance. Its use keeps the complexion always clear and beautiful. Tonic in effect. Stimulates the skin and makes it wonderfully soft-textured. Softens and whitens the hair. Persian Balm is equally invaluable to men as an excellent hair restorative and cooling shaving lotion. Splendid also to protect the tender skin of the child.

## The Last Straw

During a Scripture lesson a little girl was asked to describe the sufferings of Job.

"Job had no trouble after another," she replied. "First he lost all his cattle, then he lost all his children; then he had to go and live alone in the desert with his wife."

## The Thinnd Soul

"You remember when you cured my rheumatism a couple of years ago," asked the patient, "and you told me that I should avoid dampness?"

"Yes, that's right," replied the doctor, approvingly.

"Well, I've come to ask you if I can take a bath."

Water-Power Sites in Canada

The developed and undeveloped water-power sites of the Dominion of Canada are estimated to have a capacity of 20,347,000 horse-power under conditions of ordinary minimum flow, or 33,617,200 horse-power ordinarily dependable at least six months of the year.

A recently developed portable machine for cutting brick or tile on the job is said to cut hard material at any slant or angle.

## Contract Bridge

By Hamilton H. Hatch, Cavendish Club

Toronto

(Article No. 1.)

The greatest asset any contract bridge player can possess is the ability to play partnership. The basis of success in the game is good partnership. The first thing, therefore, for the contract player to learn is partnership methods. The essence of partnership is, primarily, partnership language, and the basis of language is conventions. In other words, it is necessary for partnership purposes that certain precise meanings be given to the language used in the contracting. These meanings are known as conventions and the difference in these conventions, is the basis of the difference in all the so-called contract systems now being put before the contract player. It must be understood that any system is an attempt to make easy to learn the methods the good card player has used for many years, and that the fundamental differences in all these systems are slight.

Besides conventions a good partner must make it a habit to study, whenever the opportunity arises, the temperament, morale, and technique of his partner. By temperament is meant the way a partner reacts. Does he lose his pulse when the breaks are against him and does this loss of pulse affect his game, or does he remain calm and collected in the face of adversity? If your partner never loses his pulse then half the battle of partnership is won. By morale is meant how your partner's courage is affected by adversity and what effect does adversity have on your partner's intellectual processes? If your partner has bad breaks does he underbid or overbid? Or is he not affected apparently in any way. If your partner thinks that every time he holds an Ace Queen, that the King is over him, that everytime he holds a King Jack that the Ace Queen is over him, then this may affect him to such an extent that he will consistently underbid. A good partner, under these circumstances, when playing with a partner who is suffering from the complex outlined above will offset these conditions by overbidding his own hand.

By technique is meant your partner's actual ability in the play of the cards. Does he or does he not get all the tricks possible? If he consistently drops a trick in the play of the hand, then a good partner when playing with a poor technician will underbid his hand, when the poor technician is the contractor. If on the other hand, your partner is a good technician bid your cards to their value limit.

A good player must always adapt himself to his partner. And adaptability is one of the strongest assets of any player. If you have an unskilled partner, you must not try to lift him up by his bootstraps to your level. You must sink to his. No partnership is better than his weakest member and to have successful partnership, the partners must meet on the same intellectual plane.

Further be pleasant and affable. Do not "rag" your partner. Keep the entire cordial established. Never, if possible, lose your pulse. And if your partner has a set system of playing the game, then for that particular partnership, play the game your partner plays and do not try to cram down his throat any of your own pet idiosyncrasies.

If then, you will realize that the theme song of contract bridge is partnership and more partnership, and that winning depends on partnership as outlined above, you will be well on the road to success, and even if your technique is weak, you will be seventy-five per cent. good player provided you play good partnership.

Douglas' Egyptian Liniment relieves toothache and neuralgia. Invaluable for cases of croup, sore throat and quinsy. Keep a bottle handy.

## Little Helps For This Week

"And let us not be weary in well doing; for in due season we shall reap if we faint not."—Galatians vi. 9.

A commonplace life we say, and we sigh.

But why should we sigh as we say? The commonplace life is the commonplace sky.

Make up the commonplace day: The moon and the stars are commonplace things.

And the flower that blooms, and the bird that sings.

But dark were the world and sad our lot, If the flowers failed and the sun shone not;

And God, who studies each separate soul,

Out of commonplace lives makes His beautiful life.

Susan Coolidge.

The course of life is a thousand trifles, then some crisis, and again a thousand trifles and a crisis; nothing but green leaves under common sun and shadow; and then a storm or a rare June day. And far more than the storm or the perfect day the common sun and common shadow do to make the autumn rich. It is the "every day" that count. They must be made to tell, or the years have failed.

—William Channing Gannett.

"Her husband was a judge, wasn't he?"

"Everybody thought so till he married her."

Hotbeds heated by electricity are rapidly gaining favor in British Columbia.

**No more dusting for me!**

at least not with old-fashioned dust cloths. I've found a better way.

Thousands of Canadian women know that her "better way" is the Appleford Wonder Paper. Made from clean rags and soft paper pulp scientifically treated with the highest grade furniture polish, it dusts—as it cleans—as it polishes.

Wonder Paper changes the old-established order of housecleaning. One neat package of it replaces more than yards of old rag that spread dust and constantly need washing to be sanitary.

You get twenty-five sheets of Wonder Paper for a quarter. Simply crumple a sheet into a soft wad, go over the furniture, woodwork, and the floors. The results are a delight. In half the time and with half the effort, you get a necessary task done far more satisfactorily.

And when you're through, throw away the piece of Wonder Paper. No shaking out, or washing, of dusters. Certainly you ought to try Wonder Paper.

**Special Offer**  
WONDER PAPER is made by the makers of the famous PARASANI, the Heavy Waxed Paper in the Green Box. Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If yours hasn't, just send this coupon and we'll give you a booklet entitled "Lifelines," containing one hundred recipes, as a bonus.

## Mountain View Notes

Mountain View W.I. will meet at Community Hall Thursday at 2 p.m.  
A dance will be held in Community Hall on June 24th. Olds orchestra.

The cutworms have been playing havoc in some of the gardens this past week.

The members of the W.I.G.C. met at the home of Mrs. E. Blain on Saturday, June 11th. The meeting opened with the singing of "O Canada," followed by the reading of minutes, after which Mrs. Hoesgood gave an instructive talk on "Cocoa and Its Uses." The various recipes she handed out will, no doubt, be tried out by interested cooks. A topic entitled "The Peasant Painter" (Millet) was given by Mrs. B. A. Atkinson, after which the meeting adjourned with the singing of "God Save The King." Mrs. Blain, Mrs. H. Roberts and Mrs. E. Barnes assisted in serving refreshments. Several members of the senior W.I. were present at the meeting. The meetings will be discontinued during July and August, as many will be away on vacations. The next meeting will take place the first Saturday in September.

## RUGBY NOTES

With an attendance of seventeen members and visitors, Rugby W.I. held their June meeting at the home of Mrs. Carlson. All arrangements were made for the baby clinic and sewing course, the latter to be held at the home of Mrs. J. Clarke. Mrs. E. Jackson was appointed delegate to the Farm Women's Week at Olds. Mrs. Clarke will act as representative at the Constituency Conference which will be held in Didsbury next month. A splendid paper on "Employment and Industry" was given by Mrs. J. Johnston, of Edmonton, which gave the members lots to think about. A very good contest was then participated in. After a very busy afternoon the meeting adjourned and partook of a most delicious lunch provided by the hostess, and everyone proceeded for home feeling that the afternoon had been a very delightful one.

## Westcott Notes.

Cleanup Day at the Westcott Cemetery on Thursday, June 23rd. All interested are asked to assist.

## WEEKLY SERMONETTE

"You can't warm your hands at the devil's fire without warping your head."

## TOWN OF DIDSBURY.

## NOTICE

Ratepayers in arrears in payment of taxes are urged to pay the 1st of July, on which date a penalty of 5% is imposed by Law on all arrears outstanding.

W. A. AUSTIN,  
Secretary-Treasurer.

## NOTICE

On account of the infection between infants in the Hospital, visiting children under the age of 15 will not be allowed in the Maternity Ward.

## Amusement Tax.

The new amusement tax levied by the Provincial Government comes into effect Monday next.

Mr. Sharp announces that in future the admission to his shows will be: small children 15c. All others 30c., including tax.

## Clears Skin of Blemishes

The Perfect Antiseptic Treatment. It is so easy to rub your skin of pimples, blotches, black spots, the redness, the fluid D.D.D. Clear and salicylic. He makes the skin smooth, the skin and quickly drive away the irritation. ITCHING RITORS INSTANTLY. A few bottles prove the merit of your druggist give your money back.

W. A. LYNCH,  
Elkton.

## Burnside Notes.

Mr. Sam McAllister was a Sunday visitor at Mr. Neah Eckel's.

Messrs. Percy Saunders and Neah Eckel spent Saturday in Olds.

Misses Winnie Spraggs and Helen Pross spent Sunday at Mr. Ed. Schaefer's near Three Hills.

Mr. and Mrs. Charles Welch and nephew, of Calgary, spent Sunday with Mr. and Mrs. A. E. Thompson.

Mrs. Walter McCoy (nee Mariel Sheils) spent Sunday at her old home here.

Miss Bertie Metz returned home last week after spending a month in Calgary.

Mr. and Mrs. A. E. Thompson and family spent Sunday evening with Mr. and Mrs. Jim Sheils.

Burnside and Community Hall baseball teams played a friendly game last week, Burnside taking the long end of the score.

We are pleased to hear that Mr. Ronald Dundas is now home again and much improved in health, after taking treatment in Edmonton for a severe nervous breakdown.

Burnside baseball team is putting on a dance this Friday evening in Lone Pine Hall. There will be a baseball game before the dance, Burnside vs. Community Hall.

Lotte Pine W.I. met Thursday last at the home of Mrs. Bert Pross, with a good attendance of members and visitors. After business was concluded, Mrs. Pross, who was celebrating her 25th wedding anniversary, was presented with a case of cutlery by the W.I. with best wishes for many more happy anniversaries for herself and husband. Both Mr. and Mrs. Pross thanked the ladies and the meeting closed with lunch, topped off with a large, two-storey wedding cake.

## Baseball 11 Years Ago.

Bill McFarquhar is exhibiting an interesting baseball picture. It shows Didsbury's championship baseball team of eleven years ago.

This picture was taken at Victoria Park, Calgary, where Didsbury played in the finals of the Alberta Amateur Baseball Playoff in 1921.

The picture shows the following players and officials:

A. C. Fisher, Manager.  
H. Clemens c.  
C. E. Reiber 2b.  
R. Honey r.f.  
V. Wood s.s.  
E. Dawson 1b.  
W. Keith p.  
A. Dawson l.f.  
E. Freeman 3b.  
C. Studer c.f. & p.  
J. W. Hallon, Mosect.  
Supported by H. W. Chambers and J. A. McGhee.

Since writing the above another old baseball picture has been resurrected, the ball team of 1913. When the picture was taken they were wearing the new uniforms for the first time. Incidentally the same afternoon Bowden gave them a good trimming. Clint Reiber says if the picture hadn't been taken before the game it never would have been taken.

The following is the line-up:

C. E. Reiber c.  
L. Good 3b.  
R. Blue l.f.  
J. Adams c.f.  
J. Pirie 2b.  
D. Steward p.  
G. Howe r.f.  
D. Whiteside s.s.  
E. Grant 1b.  
W. J. Scheidt p.
